## SUMMARY

---

Computer Engineering student specializing in Artificial Intelligence & Intelligent Systems, with a strong foundation in Python, JavaScript, and full-stack development. Experienced in building AI agents, RAG systems, and AI-powered applications. Interested in system design, problem-solving, and scalable software.

## EDUCATION

---

**Alard College of Engineering and Management, Pune, Maharashtra** — Expected May 2028

Bachelor of Engineering in Computer Engineering | GPA: 8.59/10

Relevant Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Web Development

**St John's Hr Sec School (CBSE), Damoh, Madhya Pradesh** — January 2024

High School Diploma (Class XII)

## TECHNICAL SKILLS

---

**Programming:** Python, Java, C, JavaScript, TypeScript

**Web:** React, HTML, CSS, Tailwind CSS, Vite

**Backend:** FastAPI, Flask, REST APIs

**AI:** AI Agents, RAG, Generative AI, LLMs, Prompt Engineering, Vector Databases

**Databases:** PostgreSQL, MySQL

**Concepts:** Data Structures, OOP, DBMS, Operating Systems, System Design

**Tools:** Git, GitHub, VS Code, Lovable, AI Development Tools

## PROJECTS & EXPERIENCE

---

**Self-Initiated Development Projects — Software Developer** 2024 – Present

• **MEW — Personal AI Assistant** [github.com/ashu-cypher/spidey](https://github.com/ashu-cypher/spidey)

- Built a personal AI agent around an orchestrator pipeline: understand → remember → plan → use tools → execute → verify → respond → remember.
- Implemented layered short/long-term memory, RAG over uploaded documents, and resume intelligence with job matching.
- Created a modular tool system with confirmation gates for external actions and a voice interface with wake-word detection.
- Python + FastAPI backend with PostgreSQL/pgvector; React + TypeScript + Tailwind frontend.

• **AI Learning Adventure — Bilingual Kids' Learning App** [github.com/ashu-cypher/ai-learning-adventure](https://github.com/ashu-cypher/ai-learning-adventure)

- Developed a bilingual (English + Hindi) Android learning app for nursery-age kids with 10+ mini-games.
- Built a resilient voice narration engine (Web TTS with native fallbacks) and 60fps GPU-friendly animations.
- React + TypeScript + Capacitor; real CC0 art and music.

• **Pocket Derma — AI Skincare Recommendation App** [lovable.dev/projects/22baad28-3854-4809-bed9-9ac909facf1b](https://lovable.dev/projects/22baad28-3854-4809-bed9-9ac909facf1b)

- Created an AI-powered skincare recommendation application delivering personalized routines.
- Built end-to-end with Lovable; shaped the AI's recommendation behavior through prompt engineering.

## PROJECT SKILL SETS

---

**MEW:** Python • FastAPI • React • TypeScript • AI Agents • RAG • PostgreSQL • System Design  
**AI Learning Adventure:** React • TypeScript • Capacitor • Android • Web Audio • TTS • UI/UX  
**Pocket Derma:** Lovable • AI Agents • Generative AI • Prompt Engineering • AI-Assisted Development • UI/UX

## **CERTIFICATIONS**

---

Soft Skills Course Online — GeeksforGeeks (2026) • Frontend Development (2025) • Product Matters 5.0 — ULSA (2025) • Introduction to Responsible AI — Google • Getting Started with Microsoft Excel — Coursera (2025) • Artificial Intelligence Fundamentals — IBM (2025) • Tata Group Data Visualisation Job Simulation — Forage (2024)

## **DECLARATION**

---

I hereby declare that the information furnished above is true and correct to the best of my knowledge and belief.
